This is an on-going funding request that is used to replace end-of-life hardware, purchase security related controls or licenses, potential remediation cost & support. I've held off on using this fund this year- however it is earmarked for further network device replacements, expanding & hardening servers. This has also served as a contingency if State programs become unavailable.					<b>\$100,000</b>

2025 Budget % vs. 2024		102.65%			<b>Budget Narrative:</b>				
2026 Budget % vs. 2024		96.90%			For this year's budget the majority of the requests are fairly consistent with this office's historically requested amounts, with the exception of a few items. A few have decreased to reflect actual cost. A few have increased, specifically, Professional Service 4122-310 and Miscellaneous 4122-620, these two increases are to reflect actual increased services that are being provided and in anticipation of actual costs. Both of these two increases are for statutorily and constitutionally required rights and services, ie a jury trial expenses and interpreter expenses--please see line for details. The inventory line is slightly reduced to account for 2 new computers that are due to be replaced in 2026 Finally, a requested is for Education Assistance per county policy added to the Schooling Expense 4122-860. This is for the Judge to continue to complete her Bachelor's degree in Sociology and Criminal Justice, in further pursuit of law school. Commission and HR have the authority to determine what benefits apply to Elected Officials, however JC Judge is unique within the county structure, as an appointed role, then retained through retention elections every 6 years, but still subject by statute to receive compensation similar to regular employees, as well as to comply w county rules and regulations UCA 78A-7-206 and 78A-7-210, additionally the Judge is also receiving all other county benefits afforded to regular employees. Of note--Judges may retain office until the age 75 so long as they continue to meet eligibility requirements and are retained by the voters.

<b>Budget Narrative:</b>									
The Grand County Clerk/Auditor's Office runs elections, marriage licensing, business licensing, records maintenance and GRAMA requests, special events administration, main County telephone reception, finance and accounting, budget preparation, external audit preparation, board of equalization and property tax admin, internal control monitoring, procurement, and grant administration. The Clerk/Auditor serves as the clerk of the County Commission. This office serves as a critical nerve center for County operations across all departments and offices.									
Main changes proposed in 2026 include reduction of staff by one, and elimination of the contracted financial consultant.

<b>Approved FTE Employees</b>	2	The two primary functions of the Treasurer's Office are to act as the investment officer and banker for the County and to bill and collect property taxes and disburse the taxes to the taxing entities. There are two full time employees, the Treasurer and the Chief Deputy Treasurer. A very limited number of part time Deputy Treasurer hours are used each year generally to cover the office when the full time employees are both gone. Apart from salary and benefits, the Treasurer's Office primary expenses are related to the collection of property taxes. Our largest expense is for the tax accounting software COINS and our second largest expense is the cost to print and mail tax bills, coupons and other tax notices. All other expenses are minimal and travel is generally limited to attending 3 Treasurers/UAC conferences per year.

Given current workload and staffing levels, maintaining two Deputy positions in addition to a Chief Deputy and myself is not necessary at this time. However, the Chief Deputy position has remained vacant for nearly a year. I anticipate the need to fill it in 2026 to ensure continuity, support with statutory duties, long term office stability, sustain efficient services to the public and uphold legal and operational standards. The alternative CAD option that was less expensive will not be sufficient for the GIS Specialist. One seat \$2500 and 2 at \$550. Still keeps cost down.

<b>2025 Budget % vs. 2024</b>		110.36%			<b>Budget Narrative:</b> The Grand County Attorney is an elected official with a four-year term of office. The Grand County Attorney is independent of the Utah Attorney General.  The Grand County Attorney's office is responsible for a wide array of legal functions for Grand County, some of which include: <b>The Criminal Division:</b> We enforce the criminal laws of the State of Utah by prosecuting cases. This includes interfacing with law enforcement, preparing for trials and hearings. <b>The Civil Division:</b> We are involved in preparing or reviewing contracts the county enters into and assist with drafting County Ordinances as requested. We handle all actions and claims filed against Grand County Government.  For more information please visit: <a href="https://www.grandcountyutah.net/506/Attorney">https://www.grandcountyutah.net/506/Attorney</a> .

<b>2025 Budget % vs. 2024</b>		100.68%	<b>Budget Narrative:</b>						
<b>2026 Budget % vs. 2025</b>		84.28%	The Building Dept gets most of its funding through building permit and plan review fees, the idea is that the general public does not pay for services provided only to people doing construction. There are services that our department offers that are intended for the entire public and the General Fund covers those. These include things like answering code-related questions, coordinating quality contractor continuing education, to administering the county floodplain development regulations including continued participation in the Community Rating System (CRS) program that affords every homeowner in the unincorporated areas of Grand County a 10% discount on flood insurance. We have three certified floodplain managers on staff who all perform specific duties and are required to maintain certification through continuing education. The Building Dept budget is a bare-bones budgeted for two fully certified, state-licensed inspectors and a certified permit technician all of which are mandated by the state to complete approved continuing education and maintain state licensure. Travel lines are the bare minimum to get the required education and could be increased if we want to stay up to date on changes in the codes and industry in general. The largest line item after salaries and benefits is our two lease vehicles so we can access remote building sites but are also fuel-efficient. The remaining line items are also the bare minimum to complete our jobs and fulfill state mandates such as the requirement to maintain three copies of the current state-adopted building codes and maintain our permit tracking software.

<b>2025 Budget % vs. 2024</b>		98.21%	<b>Budget Narrative:</b>						
<b>2026 Budget % vs. 2025</b>		97.79%	A significant amount of the department's operating costs (including grant-funded hourly wages) are reimbursed by our contracts with local land agencies, and by the grants that we apply for annually. (account 25-4241). Costs that are not covered by our grants and contracts are requested from the General Fund.						
<b>Approved FTE Employees</b>			Our department's growth is significantly impacted by our current office space and building, and our small number of employees has affected our ability to accept funding offers for larger projects. The building that we share with the Mosquito Abatement District is old and has threatened the safety of employees (pipe ruptures, roofing material dislocating, mold and ceiling tile collapse from roof leaks).						
<b>New Position/Reclass. Req.? (Since 2020?)</b>	Operations Manager (county funded), Seasonal Invasive Plants / Fire Tech x2 (grant-funded)		Our hazardous materials shed is itself a hazard, and does not meet some of the requirements for herbicide storage. Our hazardous materials must be stored in a climate-controlled building, and a space heater is a serious fire risk. There is also a mysterious puddle of unknown hazardous material on the metal floor, which will need to be disposed of properly and in the meantime may volatilize and create an unsafe storage facility for employees. The puddle is likely a decade old.

The position is also a 24/7 on-call position. <b>PUBLIC NOTICE:</b> There is a need for outreach relating to fire and flood awareness, heat illness, community preparedness and mitigation. With public notice funds, the office intends to contract out to create deliverables and "table" at public events to increase community awareness and resiliency around disasters. <b>TRAVEL:</b> The county emergency manager is expected to attend state conferences, coordination council meetings, exercises and trainings as the County emergency manager. There are additional training requirements in order to fulfill state training expectations and grant stipulations. If travel funding is reduced, training funding would need to increase - there are sometimes virtual training options required, but they have an additional fee to enroll. Often in-person trainings are free, but then travel costs would be incurred.

<b>2025 Budget % vs. 2024</b>		142.49%	<b>Budget Narrative:</b>						
<b>2026 Budget % vs. 2025</b>		70.79%	The Grand Center has two budgets with the County, one for the senior center and another for the community center. We have a third budget with Southeastern Utah's Area Agency on Aging or AAA. The AAA runs our Nutrition Program The nutrition Program is funded by federal and state funds. They also utilize Project income which is the donation money from the seniors on our lunch program. Congregate and Home delivered meals are a suggested donation of \$2.50 this income is kept separate and its use is closely regulated by the Older American Act. The county also contributes money to the Nutrition Program. Line item 10-4311-920-000 Contributions to other Agencies. This money is utilized to pay for 2 cooks here at the center, they are employees of Southeastern Utah Association of Local Government, or SEUALAG. I have added in a raise for the cooks this year. Thank you for your time and consideration.						
<b>Approved FTE Employees</b>			The community center has 3 full time employees. The facility coordinator and 2 maintenance workers. The community center has rooms that we rent out for weddings, birthday parties, memorial ceremonies, and other community needs. We work with other community entities like the multi-cultural center, the hospital, Utah State University, and the Health Depart to help meet the needs of not only our seniors but the community as a whole. We have several support groups, ie grief, caregiver and a new dementia support group that meet here. The community center's rooms are available for use by government agencies for no charge, that includes federal, state, city and county. Our building is close to 20 years old and we try and keep up with wear and tear of the years. Thank you for your time and consideration

I need to keep this amount at least the same as 2025. 2026 is expecting all of the same return events from 2025 along with the addition of some new events. OSTA is also a facility that is utilized and relied on in emergency incidents. Emergencies come without warning and OSTA staff need to be ready to meet these demands along with having the required materials to facilitate these needs.

These two employees were on schedule to attend The League of Agricultural & Equine Centers Advanced Footing Academy. Obtaining this accreditation not only awards the employee but the facility they work for. This accreditation is appealing in the agricultural and equine industry. For an event producer when they are choosing their venue for their event, being able to show that our staff and facility are professionally trained would highlight advantages that OSTA has to offer. Funding was also factored in for the Director and Assistant Director to tour other facilities and attend a Managers meeting that is held with other arenas. These tours are valuable to our industry as we have a chance to see how other like facilities run their departments and the pros and cons that come with their successes and challenges.

For 2026 this line item comes out to \$4,500 (while keeping it fairly conservative). OSTA utilizes this funding source for the rental of a double drum roller which is required to hard compact the arena floor in preparation for several events throughout the year. The rental fee for this roller ranges from \$500-\$600 with each rental. Each event is unique in its set up and requires the assistance from the facility staff to mitigate any additional safety concerns for their event layout. To lower the liability risk on our end events may require additional safety precautions. These safety precautions may require materials such as caution tape, signage, sandwich boards, zip ties, lyme, etc.

<b>2026 Budget % vs. 2025</b>		99.47%	OSTA has been in higher demand with an increase in community events, and the incoming of additional permitted events. The highly anticipated development of the playground, pickleball courts, and archery range also adds additional items that will need attention and maintenance during production and after. OSTA would like to request an additional Maintenance Technician and this cost is already included in our salary total. OSTA has also been managing the full 65 acres with old law enforcement fleet vehicles. Transitioning these large, non-fuel-efficient vehicles that have high maintenance needs, for utility vehicles that can be on a program that covers the maintenance will save us money in the end. Overall productivity will increase with the proposed utility vehicles as they are designed for the maintenance worker. The arena building is thirty plus years old with the outdoor arena portion dating back to the early sixties. Both of these areas are in high demand and need restoration or general maintenance. The OSTA budget has also taken on cost of the mobile stage which has seen an increase in use. A majority of OSTA's budget request are focused around safety and lowering the overall maintenance cost, along with meeting the demands of our growing community.

2025 Budget % vs. 2024		105.10%	<b>Budget Narrative:</b>								
2026 Budget % vs. 2025		99.80%	CNY plays a vital role in Grand County's economy and emergency services. The airport provides a gateway not only for tourism, but for the business sector and for our healthcare system. Many healthcare providers utilize the airport to provide services to the community that we would otherwise have to travel hundreds of miles to receive. Critically injured and sick patients can receive definitive care quickly because the hospital and EMS services can call on air resources for transportation to larger hospitals. On any given year the airport supports nearly 100 good paying jobs to the community. Grand County generates \$19, for every \$1 spent at the airport. Visitors that fly to Moab infuse more money into Grand County's economy than visitors who drive. It is a reality that the airport is one of the more expensive departments to fund; however, the airport has the ability to generate revenue as an enterprise fund. The expense of the airport should be seen as an investment into the community and it's economy and efforts should be taken to build an airport that will attract pilot's and businesses. The Airport needs a marketing fund to spend on advertising and promotion of the airport and the airline service. The airport should invest in a website based on some other platform than the Civic Plus program the County utilizes. CNY has the potential to become self sustaining financially, if we invest into the infrastructure and maintenance of our assets. I have a waiting list of people who want to invest in our airport but the infrastructure is just not in place to get them to commit. Please consider the impact of the airport on the economy of Grand County and the surrounding communities when deciding on this budget.

<b>2026 Budget % vs. 2025</b>		100.72%	Grand County Roads and Bridges is tasked with the maintenance of 180.91 center line miles of paved roads, 230.40 center line miles of gravel roads, 1,519.80 center line miles of natural material roads. These roads are referred to as "B" roads. This includes the related infrastructure such as 23 bridges, curb/gutter and sidewalk, regulatory signage, street signage and thousands of feet of culverts. The road department is also tasked with the maintenance of county constructed storm drain infrastructure consisting of ten (12) detention ponds and related infrastructure. Upon occasion the department will provide maintenance to non-county detention basins. The road department is also tasked with maintenance of the road department fleet as well as fleet maintenance for other county departments totaling approximately 300 units (vehicles & equipment). The road department fields and responds to various requests for information, concerns, and reports of damage to roads and or related infrastructure. Snow removal and flood response also falls under our responsibilities. The department is also charged with coordinating with land management agencies as well as other county departments, committees, districts, Castle Valley Town, Moab City, Thompson Springs and the citizens and visitors of Grand County. The Road and Bridge Department receives revenue from the State of Utah via fuel taxes. The general fund contributes a statutorily required \$200,000 to the Road and Bridge Department.

<b>Budget Narrative:</b>								
Fund 27 is used to administer restricted monies related to department donations, specific projects, and pass-through funding, such that they are appropriately discriminated from General Fund monies. Senior Center Projects funds refer to small fees collected for the senior meals program, which are restricted per contractual obligations with the Southeastern Utah Regional Development Agency (SERDA).

## 2026 GCATT Department & Budget Overview

### Organizational Chart & Dept Changes from 2025 to 2026

#### Overview

From 2023-2025, The Active Transportation & Trails Dept has housed two programs:

1. The Trails Program develops new non-motorized trails and maintains th 170+ miles of trails proposed and constructed by Grand County in partnership with the BLM. The majority of this mileage is mountain biking trails but also includes hiking, climbing/canyoneering access, and equestrian trails. The field staff for this program are the Trail Crew. The funding sources are Optional Sales Tax revenue and a variety of grants.
2. The Responsible Recreation Program improves visitor management by providing visitors with information and supplies that promotes responsible recreation. The field staff for this program are the Trail Ambassadors and focus areas include hiking, OHV, mountain biking, and rock climbing. The funds sources have been General Fund (Transient Room Tax was backpaid with the General Fund after a State Audit) and various grants.

#### 2026 Changes:

In 2026, the Responsible Recreation and Trail Ambassador Program will be restructured as a nonprofit outside of the County. GCATT's 2026 budget includes only staff and projects related to active transportation and trail operations, including a new OHV Trail Coordinator position, and the only tax revenue requested is Optional Sales Tax (no General Funds are requested).

#### Summary of Staffing Changes (see detailed breakout below)

2026: 9 positions

2025 for reference: 20 positions (including one Temp Project Manager position)

Decrease: 11 positions

### 2026 Budget Overview

Total 2026 expenses are over \$4 million. The only tax revenue used is Optional Sale Tax (8.7% of total revenue). The remaining 91.3% of the revenue is grants, agreements, donations, and interest income. The specific grants and grant projects that offset the need for tax revenue vary from year to year.

In 2023 and 2024, over \$400,000 in Optional Sales Tax was used in addition to approximately \$500,000 in Transient Room Tax (later backpaid with General Fund after a State Audit). This year's budget request is a 57% decrease from the average amount of tax revenue used over the past 3 years.

The Non-Motorized Trail Master Plan Update is scheduled for completion this fall. No funds have requested for this project in 2026.

#### Cuts Made to 2026 Budget:

Note: In 2026, Responsible Recreation Program restructured to nonprofit and removed from department

1. All deferable purchases (computers, equipment rental, trainings)
2. Reductions across all non-grant funded supplies and equipment
3. Director and Operations Coordinator salaries
4. Volunteer Coordinator position

**Other Possible Cuts:**

\$ 13,200 New truck for OHV Trail Coordinator

**Priority additions to 2026 budget (additions made and highlighted):**

\$ 1,625 x5 Wilderness First Aid recertifications  
 \$ 1,800 x3 TrafX Counters  
 \$ 33,252 Restoration of Trail Tech 5 position @ 1,200 hours  
 \$ 3,100 Tools needed for the new OHV Trail Program beyond the \$1,500 provided by the OHVR Grant  
 \$ ~~16,626~~ Restoration of VEB position @ 600 hours (Note: Not included in the 2026 budget)

<b>2025 Budget % vs. 2024</b>		81.31%	The Children's Justice Center is deeply grateful for the new center and the opportunity it provides to better serve children and families in our community. With this exciting transition, however, comes the added responsibility of covering utilities at the new building—an expense that has never before been part of our budget. While this is a positive step forward, it does place an additional financial burden on an already lean operating budget.						
<b>2026 Budget % vs. 2025</b>		100.79%	The estimated cost of utilities will be approximately \$14,000 annually.						
<b>County Contribution (2026 vs. 2025)</b>		96.80%							
<b>Approved FTE Employees</b>		1	In 2024, I proactively reduced the budget by more than 25% to ease county expenses, leaving us operating at a minimal level. Since then, I have continued to trim costs wherever possible—including reducing staff attendance at this year's symposium and rationing basic office supplies like printer ink to stretch every dollar.						
<b>New Position/Reclass. Req.? (Since 2020?)</b>		0							
<b>Software utilized by Dept.</b>			Despite these efforts, the demand for our services continues to grow. The state has recognized this increase in need and raised their allocation for FY26 to \$127,625. Our total budget request is \$204,539, which covers all operational costs, including the new utility expenses, as well as my salary and benefits. With the state reimbursement of \$127,625, the total cost to Grand County will be \$76,914—a reduction from last year's request, even while accounting for rising costs and new expenses.						
<b>Dept. Revenue Codes</b>	45-3836, 45-3841								
<b>Expected Reimbursements</b>	No								
<b>Grants</b>	Yes		For context, of the \$204,539 requested, approximately \$148,000 is dedicated to salaries and benefits, leaving just \$56,539 to operate the entire program for the year. Of that, \$14,000 will go toward utilities, further tightening the margin for program operations. I have worked diligently to reduce costs, and this reflects the maximum level of trimming possible without compromising essential services.						
<b>Grants/Funds &amp; Revenue For 2025</b>			I want to emphasize that I remain committed to supporting the county's financial goals while ensuring that the Children's Justice Center continues to serve families at the highest standard possible. This budget reflects both fiscal responsibility and the reality of our growing community needs. I am truly grateful for the county's continued support in making this vital program possible.

<b>2025 Budget % vs. 2024</b>		113.04%	<b>Budget Narrative:</b>						
<b>2026 Budget % vs. 2025</b>		126.69%	The majority of the Family Support Center's funding is provided by two separate grants from the state of Utah, with the remainder of the budget being supplemented by the County. The two grants, DHS and DHHS are separated into line items 4110/CRN and 4112/FSCU, respectively. Each grant requires a detailed budget narrative which has been submitted and approved by the DHHS grant/contract analysts. All budget line expenses for programming and operations are fully reimbursed by the grant funds with the exception of salaries and benefits. Each grant reimburses the salary and benefit expense based on the DHHS approved budget and then we rely on the county to contribute the remaining amount. Employee wages vary from year to year depending on the number of shelter kiddos we serve and the hours required to staff an extended 24/7 crisis schedule. When this occurs, we utilize our on-call crisis workers in addition to our regular full-time employees which significantly impacts the salary and benefit budget line.

<b>2025 Budget % vs. 2024</b>		159.90%	<b>Budget Narrative:</b>						
<b>2025 Budget % vs. 2024</b>		92.14%	The 9,000-acre Sand Flats Recreation Area (SFRA) has been managed in partnership between the Bureau of Land Management and Grand County as a self-sustaining entity since 1995. Sand Flats operates as an Enterprise fund under Grand County and all funds remain in this program. Sand Flats budget comes exclusively from collected fees which fund all operating costs- wages, benefits, equipment, supplies, services and facility improvements. SFRA requires annual revenue and a fund balance to operate as a self-sustaining entity. It is critical to maintain a positive fund balance so that the SFRA can provide required services, quickly address threats to public health and safety and to build up funds for future investments in recreation area infrastructure. The Fund Balance will fluctuate as it is allowed to build up to fund projects and then drop as projects are completed.

Current Fund 73 Reserve Balance: \$59,384.65									
Fund 33 - Debt Service Library: The library facility debt payments have been completed this year (\$2.5 million bond), and the associated tax is no longer be levied. A balance of \$277,111.16 remains in this fund. The Utah State Tax Commission has been consulted regarding the use of these funds, particularly if they may be available for use in facility repairs. No clear guidance has yet been given.
